INFORMED CONSENT FOR TREATMENT

Professionals at DCMHC Include: Psychologists, Professional Counselors, Social Workers, Marriage and Family Therapists, Interns, and any other licensed or limited licensed therapist.

CLIENT THERAPIST RELATIONSHIP

You and your therapist have a professional relationship existing exclusively for therapeutic treatment. This relationship functions most effectively when it remains strictly professional and involves only the therapeutic aspect. Your therapist can best serve your needs by focusing solely on therapy and avoiding any type of social or business relationships. Gifts are not appropriate, nor is any sort of trade of service for service.

AVAILABLE SERVICES

Donarski Center for Mental Health Counseling, LLC offers a wide array of counseling services, including individual, family, couples, group counseling, and reunification counseling. These services are provided respectively by licensed professional counselors, licensed clinical social workers, licensed marriage and family therapists, and doctors of psychology.

RISKS AND BENEFITS

Counseling and psychotherapy are beneficial, but as with any treatment, there are inherent risks. During counseling, you will have discussions about personal issues which may bring to the surface uncomfortable emotions such as anxiety, anger, guilt, and sadness. The benefits of counseling, however, can far outweigh any discomfort encountered during the process. Some of the possible benefits include, but are not limited to:

- improved personal relationships
- reduced feelings of emotional distress
- specific problem-solving

We cannot guarantee these benefits. It is our desire, however, to work with you to attain your personal goals for counseling, and psychotherapy.

COUNSELING

We provide outpatient counseling designed to address many of the issues our clients are dealing with. Your first visit will be an assessment session in which you and your therapist will determine your concerns, and if both agree that your current therapist can meet your therapeutic needs, develop a plan of treatment. Should you choose not to follow the plan of treatment provided to you by your therapist, services to you may be terminated.

Your therapist's goal is to provide the most effective therapeutic experience available to you. If at any time you feel that you and your current therapist are not a good fit, please discuss this matter with your therapist to determine if a transfer to a more suitable therapist is right for you. You may also consult with Edwin R. Vergara MA, LPC. If it is decided that other services would be more appropriate, we can assist you in finding a provider that may meet your needs.

Wellness is more than the absence of disease; it is a state of optimal well-being. It goes beyond the curing of illness to achieve health. Through the ongoing integration of our physical, emotional, mental, and spiritual self, each person has the opportunity to create and preserve a whole and happy life. Our

services are designed to provide our clients an integrated solution for their mind, body, spirit, and life, to enhance their lives and resolve issues.

APPOINTMENTS

Appointments are typically scheduled on a weekly basis and are approximately 45-50 minutes. More frequent sessions or an intensive outpatient schedule are available if determined appropriate by your therapist.

If you must cancel or reschedule your appointment, we ask that you call our office at (269) 982-3832 at least 24 hours in advance, whenever possible. This will free your appointment time for another client.

Please note that you may be charged up to a \$85.00 fee for a non-cancelled/missed appointment with a masters level clinician, and a \$150.00 fee for a non-cancelled/missed appointment with a doctoral level clinician. Clinicians are at discretion to charge a fee not to exceed the above amount. Your insurance company is not responsible for this payment and cannot be billed for a missed appointment. It is our policy and option to not honor future scheduled appointments following repeated missed appointments or refusal to pay fee.

DCMHC reserves the right to override arrangements for recurring appointments after repeated no-call/no-show events. You will be notified by our office staff that you are being removed from the recurrent schedule, at which time, any future appointments will be nullified. If you would like to be placed back on the schedule, feel free to call our office and one of our staff members will be able to assist you. Bear in mind the possibility that your recurrent slot may have been granted to another client.

EMERGENCIES

You may encounter a personal emergency which will require prompt attention. In this event, please contact our office regarding the nature and urgency of the circumstances. We will make every attempt to schedule you as soon as possible or to offer other options or referrals.

It is not always possible to return a call immediately. However, we will make every effort to respond to your emergency in a timely and efficient manner. If your emergency arises after hours or on a weekend, please call our office and leave a message. Furthermore, if you experience a life-threatening emergency, call 9-1-1 or have someone take you to the nearest emergency room for help. When your therapist is not available, you will be advised and given the name of an on-call therapist for your assistance until your therapist returns.
